Terms of Reference Table (“TOR Table”)

Contract Capacity	200 MW (AC, net)
Bid Type	<ul style="list-style-type: none">• Pay-as-Bid• The minimum Offered Contract Capacity per Bidder shall be 25 MW (AC, net)• A Bidder shall submit a Bid Price indicating its Total Delivered Headline Rate (“Headline Rate”).• If the Bidders’ total Offered Contract Capacities go beyond the required Contract Capacity (i.e., more than 200 MW), the Bidder that fills up the last stack (hereinafter referred to as the “Marginal Bid Offer”) shall have its Offered Contract Capacity reduced accordingly up to the extent of the required Contract Capacity at its Proposed Tariff.• Should the Winning Bidder/s’ total Offered Contract Capacities fall below the required Contract Capacity (i.e., less than 200 MW), the Winning Bidder/s have an option to increase the Contract Capacity under the PSA only to the extent of the required Contract Capacity (i.e., 200 MW) under this Bidding, which option shall be exercised immediately after determination of Best Bid/s and the BAC-PSA shall evaluate the said increase of Contract Capacity during the period allowed for Post-Qualification. This option to increase the Contract Capacity will not affect or change the Winning Bidder/s’ Proposed Tariff and is subject to payment of the additional proportionate Participation Fee under this Bidding.

However, RECs shall be accounted on a monthly basis. • For clarity, for the first Billing Period, RECs shall be reckoned from the OED until 25th of such Billing Period. • For purposes of accounting of the RECs, at the time of the OED, and without prejudice to Bidder's right to supply power from any source including the WESM, the whole or portion of the Bidder's Offered Contract Capacity to be sourced from an Eligible RE Nominated Plant is not covered by any offtake agreement (e.g., a power supply agreement or ancillary services procurement agreement, including a financial-type arrangement of power supply agreement) that will conflict with the Bidder's obligation should it be declared the Winning Power Supplier.
