f. An assessment of whether the proposed RPT is on terms and conditions that are comparable to the terms generally available to an unrelated party under similar circumstances.

The Company should have an effective price discovery system in place and exercise due diligence in determining a fair price for RPTs.

The RPT shall be considered material if determined by the RPT Review Team to be potentially or actually significant to the Company. The aggregate amount of RPT under consideration, within the preceding 12-month period, shall be among the aspects to be considered in determining the materiality of such:

Classification	Aggregate Transaction Value (12-month period)
SEC Material Transactions	10% and above of the Company's total assets based on its latest audited financial statement
Material Transactions	PhP50 Million and above
<i>De Minimis</i> transactions	Below PhP50 Million

Material RPTs shall be evaluated by the RPT Review Team to ensure that these are not undertaken on more favorable economic terms (e.g., price, commissions, interest rates,

	<p>fees, tenor, collateral requirement) to such related parties than similar transactions with non-related parties under similar circumstances and that no corporate or business resources of the Company are misappropriated or misapplied, and to determine any potential reputational risk issues that may arise as a result of or in connection with the transactions.</p> <p>For individual and aggregate RPTs within a twelve (12) month period that breach the materiality threshold of ten percent (10%) of the company's total assets, the Board of Directors shall appoint an external independent party to evaluate the fairness of the terms of the RPT. An external independent party may include, but is not limited to, auditing/accounting firms and third-party consultants and appraisers. The independent evaluation of the fairness of the transparent price ensures the protection of the rights of shareholders and other stakeholders.</p> <p>After review, the RPT Review Team shall report the material RPTs to the RPT Committee for its evaluation,</p>	
--	--	--

	<p>approval and/or endorsement to the Board.</p> <p>Material RPTs shall require endorsement of the RPT Committee and approval by the Board.</p> <p>De Minimis RPTs entered in the ordinary course of business shall neither require review by the RPT Committee nor approval by, and reporting to, the Board.</p> <p>The Board may require that a material RPT be also submitted to the stockholders for consideration and ratification. In such case, a majority of non-related party shareholders shall be required to approve this RPT during shareholders' meetings.</p> <p>Regardless of the amount of the transaction or contract, RPTs entered into by a director or corporate officer in his/her personal capacity must be approved by the Board. These RPTs shall be voidable at the option of the Company, except when all the following conditions are present:</p> <p>a. The presence of the Director in the board meeting in which the</p>

<p>2. Board establishes a voting system whereby a majority of non-related party shareholders approve specific types of related party transactions during shareholders' meetings.</p>	<p>Compliant</p>	<p>Provide information on voting system, if any.</p> <p>The Company, at all times, observes, upholds and respects the rights of its shareholders, minority and majority alike, in the review, approval and disclosure of RPTs.</p> <p>Under the RPT Policy, the Board may require that an RPT approved by it be also submitted to the stockholders for consideration and ratification. Under the RPT Policy and Guidelines, the Board may require that a material RPT</p>	

be also submitted to the stockholders for consideration and ratification. In such case, a majority of non-related party shareholders shall be required to approve this RPT during shareholders' meetings.

Regardless of the amount of the transaction or contract, RPTs entered into by a director or corporate officer in his/her personal capacity must be approved by the Board. These RPTs shall be voidable at the option of the Company, except when all the following conditions are present:

Recommendation 2.9			
1. Board establishes an effective performance management framework that ensures that Management's performance is at par with the standards set by the Board and Senior Management.	Compliant	<p>Provide information on or link/reference to a document containing the Board's performance management framework for management and personnel.</p> <p>The Company's Revised Manual of Corporate Governance mandates the Board to formulate and to annually review the Company's mechanism for performance assessment of the Board and Management, principally the President and/or Chief Executive Officer (CEO).</p>	
2. Board establishes an effective performance management framework that ensures that personnel's performance is at par with the standards set by the Board and Senior Management.	Compliant	<p>The annual performance of Management and employees is also assessed through the achievement of the Company's Goals and Initiatives (GAINs) indicators. Revving up to Achieve a Culture of Excellence (RACE) is Meralco's Employee Performance Management System. It was created to ensure alignment between performance and the overall company objectives to promote a culture of high</p>	

		<p>performance and meritocracy (advancement based on individual ability or achievement). It is a holistic approach that captures the key elements of effective performance management such as performance planning, monitoring and development, and evaluation.</p> <p>Through the Performance Evaluation Plan (PEP), the overall contributions of individuals are recognized by accurately measuring what the employee delivers (i.e., results) and objectively assessing how the employee delivers results (i.e., behavior) over a given. It is the aim of the PEP to produce relevant information on employee performance that will serve as basis for various people management decisions relating to employee development and rewards.</p> <p>Performance of the Management and employees is evaluated on a biennial basis based on two critical factors:</p> <ol style="list-style-type: none"> 1. GOALS & INITIATIVES (GAINs) – measures the employee's work accomplishments during the 	
--	--	---	--

		<p>performance period (i.e., individual goals vs. actual work accomplishments); and</p> <p>2. VALUES & BEHAVIOR (V&B) – measures how well the employee met expectations based on the behavioral manifestations of the seven Corporate Values, namely: Customer Service, Performance, Accountability / Empowerment, Integrity/Transparency, Teamwork/ Collegiality, Malasakit and Makabayan.</p> <p>Employee performance is rated using a 5 point rating scale, where “1” is the highest rating and “3” is the passing rating. Performance ratings are to be subjected to a calibration and validation process to check on the fairness of the ratings and to ensure consistency in the application of standards among all raters.</p> <p>Links:</p> <p>Company Website: Employee Development and Engagement</p> <p>Revised Manual of Corporate Governance: mer.ph/CGManual2024</p>

Accordingly, the Company's performance management process assesses employee performance on the basis of: 1) actual vs. desired results; and 2) how results were delivered in light of corporate core values. The achievement of financial and non financial measures is reflected in performance planning and assessment which drives the Company's merit and incentive pay programs.

Solar power is also abundant and unobstructed in most rural communities and is relatively easy to operate and less costly to maintain — an ideal solution for public schools, rural and agriculture farms and island-mountain health centers that mostly rely on government subsidy for Maintenance.</p> <p>Meralco also endeavors to provide an alternative source of electricity to off-grid public schools, through its <i>School Electrification Program</i>. It benefits schools located in mountain and island communities, such as those that provide education to indigenous peoples. Under the program, schools are installed with up to 2 kilowatt-peak solar photovoltaic (PV) systems capable of producing enough electricity to power classroom lights, laptop computers and multimedia learning equipment.</p>

Each year, the Company participates in the week-long national school maintenance program called "<i>Brigada Eskwela</i>" of the Department of Education (DepEd), sending hundreds of employee-volunteers to inspect the electrical safety of classrooms and offices, clear nearby powerlines of safety hazards (e.g. tree branches), and recommend ways to improve efficient energy use.</p> <p>Together with the Department of Environment and Natural Resources (DENR), Meralco launched a competition that recognizes the best energy efficiency and safety programs implemented in schools.</p>
