

Net-Metering Application Form for Solar PV System

Application will only be processed once all required information has been provided.

Please note that incomplete or inaccurate information may cause delays in the processing of this application.

1. All updates regarding this application will be sent to the customer and authorized representative using the contact details provided below.
2. Before submitting this application, please ensure that the name and service address provided are accurate and up to date.
3. You may attach the Annex Sheet(s) if you are a primary-metered customer and/or additional details are needed

Applicant Type:

Residential

- ☐ Individual - Owner
☐ Individual - Lessee

Non-Residential

- ☐ Sole Proprietorship
☐ Partnership
☐ Corporation
☐ Others (please specify): _____

I. CUSTOMER INFORMATION (ACCOUNT OWNER):

Full Customer Name			
Customer Account Number (CAN)		Service ID Number*	
Service Address (Location of Solar PV System)			
Contact Number (Landline/Mobile)		Email Address	

* If the CAN covers multiple Service ID Numbers, indicate the Service ID Number for the service address where the Solar PV System is installed.

If the application will be processed through an Authorized Representative of the Account Owner, please provide the following information:

Name of Authorized Representative			
Contact Number (Landline/Mobile)		Email Address	

II. PROJECT INFORMATION:

Start of installation of Solar PV System (dd/mm/yyyy)		Installation completion (dd/mm/yyyy)	
Name of Solar Company / Installer			
Type of Solar Installation ☐ Rooftop ☐ Ground-mounted ☐ Floating	REC Meter* Installation ☐ YES: I choose to have a REC meter installed to measure my system's total RE generation ☐ NO: I waive the REC Meter installation, I agree that my total RE generation will be estimated**, and I will sign the required waiver		

* A kilowatt-hour meter that measures the gross electricity generation from eligible RE System

** Generation per Month (in kWh/mo) = Installed PV Capacity (in kWp) x Capacity Factor x AC/DC Ratio x Monthly hours of operation of system (in hr) (See Annex for complete details)

III. TECHNICAL DETAILS

Download this form on the website, print or photocopy the Annex sheet for systems with multiple inverters, solar panel, or battery models/ratings, and provide the specifications for each model/rating accordingly.

A. Solar Panel Specifications

Manufacturer/Brand		Model	
Rated Capacity per panel (Wp)		Number of Panels Connected	

Total Installed Rated Capacity ¹ (kWp)	
---	--

¹ Include the total capacity of all solar panels, computed as: (Rated Capacity per Panel in Wp x Number of Panels) ÷ 1,000, and add each set separately if multiple panel models or ratings are used.

B. Inverter Specifications

Manufacturer/Brand		Model	
Maximum AC Power per unit (kW)		Number of Units	
Rated output AC Voltage (V)		Rated Frequency (Hz)	
Number of phases	☐ Single ☐ Three		

Total Inverter AC Max. ² Output Power (kW)	
---	--

² Include the sum of AC Max. Output Power of all inverters, if multiple inverter models or ratings are used.

C. Battery Energy Storage System Specifications (if applicable)

Manufacturer/Brand		Model	
Number of Units in Series per String		Nominal Voltage per unit (V)	
Number of Parallel Strings		Nominal Capacity per unit (Ah)	
Battery Energy (kWh)		Transfer Switch Details	☐ Automatic ☐ Manual

Total Installed Battery Energy ³ (kWh)	
---	--

³ Include the sum of Battery Energy of all batteries, if multiple battery models or ratings are used.

IV. DECLARATION AND CONFORME

I hereby certify that all information provided in this application form and its supporting documents are correct and complete to the best of my knowledge. I further confirm that this information can be used by Meralco for the evaluation and interconnection of my Solar PV System to the distribution system in compliance with applicable laws, rules, and technical standards.
