Subject: RELATED PARTY TRANSACTIONS (RPT) COMMITTEE	Sensitivity Classification: Confidential	

I. General Objectives

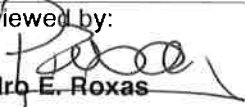

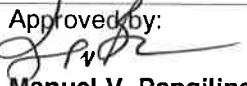

The Related Party Transactions (RPT) Committee shall review material/significant RPTs¹, determine whether they are in the best interest of the Company and shareholders, and ensure that all RPTs of the Company are conducted in fair and at arm's length terms. It endorses recommendations to the Board as deemed appropriate or approves actions within its delegated authority.

II. Key Responsibilities

The Committee, assisted by the RPT Review Team composed of the Head of Financial Planning and Reporting, the Head of Legal and the Head of Supply Chain and Logistics Management, shall have the following duties and responsibilities:

1. Evaluate, on an ongoing basis, existing relations between and among businesses and counterparties to ensure that all related parties are continuously identified, RPTs are monitored, and subsequent changes in relationships with counterparties (from non-related to related and vice versa) are captured. Related parties, RPTs and changes in relationships should be reflected in the relevant reports to the Board and regulators/supervisors;
2. Evaluate all material RPTs to ensure that these are not undertaken on more favorable economic terms (e.g., price, commissions, interest rates, fees, tenor, collateral requirement) to such related parties than similar transactions with non-related parties under similar circumstances and that no corporate or business resources of the company are misappropriated or misapplied, and to determine any potential reputational risk issues that may arise as a result of or in connection with the transactions. In evaluating RPTs, the Committee takes in to account, among others, the following:

¹ Material/Significant Related Party Transaction - any RPT determined by the RPT Review Team to be potentially or actually significant to the Company. The aggregate amount of RPT under consideration, within the preceding twelve (12) month period, shall be among the aspects considered in determining the materiality of such.
